Scholarship Guidelines and Applications Updated

International Headquarters - Sale of Building

The process of selling our headquarters building in Austin has been completed; the sale was final on September 1, 2021. The International Administrative Board met in August to determine a plan for the transition to a new office space. The Board determined it would be in the Society's best interest to lease office space for the immediate future. If future ownership is considered, a constitutional amendment would be required in order to purchase an existing building in lieu of land development or construction. An ad hoc committee was appointed to approve potential lease options.

Because the building is a permanent asset, the proceeds from the sale were deposited into the Permanent Fund of the Society. The Constitution defines in Article IV how monies in the Permanent Fund may be used and will be the guide for any future use of the sale proceeds.

As the managing authority of both the building and its contents, the Board also authorized the consideration of appraisal firms to value and possibly sell redundant items in the building. A previously appointed ad hoc committee, consisting of board members, members, and staff, is working on a recommendation regarding archiving, preserving and keeping, moving, selling and/or disposing of the furnishings and other items in the building. The recommendation from that committee will be considered by the Board during its next meeting.

Member feedback is welcomed. Under a lease agreement, the building will be occupied by DKG for six (6) months after the sale, giving the society time to consider viable options. However, we also realize that time will not allow us to move too slowly. And so, our journey to a new site continues forward with increasing momentum.
